Training Manual – Vehicle Contracts Management

1. INTRODUCTION

This manual covers the functionality and steps to be followed when capturing and updating vehicle Contracts within the FIS.

Any vehicle to be allocated to either an internal g-FleeT division or to a client requires a contract to be opened against such division / site, thus enabling g-FleeT to keep track of where the vehicle resides, who it is allocated to and so that the billing can be directed to the responsible client and against their chosen account allocations.

2. BACKGROUND

When a NEW vehicle is road and client allocation ready, a contract is opened within the FIS, by the Permanent Fleet section and against the relevant client site / internal business unit site.

The Status of the vehicle will automatically move to IN SERVICE at this stage through the created contract. In Service means that the vehicle is allocated to either a g-FleeT Internal Site or a Client Site and can be actively utilised.

For as long as the vehicle is on the IN SERVICE status, the vehicle's active contract can be managed and the vehicle allocated on another/next contract as required by g-FleeT. Again, please note the requirement that there should always be one valid active contract allocated on a vehicle at any time, while on IN SERVICE status. A contract can therefore not be CLOSED and no next contract OPENED in its place, unless the status is changed to STOLEN for instance and where a next contract is not applicable.

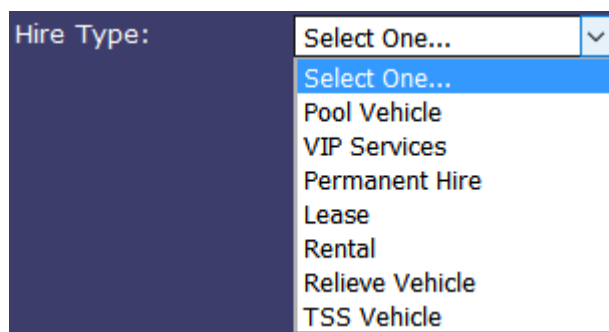

Certain business rules exist in terms of what Contract Types are available to assign the vehicle contract against. These are linked to the vehicle's intended service allocation and the Vehicle Master Hire Type Definition. g-FleeT operates on four main Hire Types to which a vehicle can be assigned. These then dictate, according to business rules, which associated Contract Type the vehicle can be issued against.

2.1 Hire Types

The **Hire Types** are:

- Lease
- Permanent Hire
- VIP Services
- Pool Vehicle

Training Manual – Vehicle Contracts Management

A screenshot of a web form. On the left, there is a dark blue rectangular area with the text 'Hire Type:' in white. To the right of this area is a dropdown menu. The dropdown menu is currently open, showing a list of options. The top option is 'Select One...' with a small downward arrow to its right. Below this, the same text 'Select One...' is highlighted in blue. The remaining options in the list are 'Pool Vehicle', 'VIP Services', 'Permanent Hire', 'Lease', 'Rental', 'Relieve Vehicle', and 'TSS Vehicle'.

Hire Type:	Select One...
	Select One...
	Pool Vehicle
	VIP Services
	Permanent Hire
	Lease
	Rental
	Relieve Vehicle
	TSS Vehicle

2.2 Contract Types

The **four Contract Types** are:

- Lease
- Monthly
- Daily
- Relieve

Training Manual – Vehicle Contracts Management

2.3 Hire Type vs Contract Type Relationships

The Hire Type to Contract Type relationships are depicted as follows:

These contract relationships and associated billing methodologies applicable thereto is discussed in more detail later on in this manual.

Training Manual – Vehicle Contracts Management

3. RESPONSIBLE DIVISION / USERS

Contracts management is performed by the various business units within g-FleeT who are responsible for allocating vehicles to internal business units and/or issuing vehicles to clients.

These business units are:

- **Permanent Fleet Section**

Responsible for New vehicles allocation to any of the below internal business units and for issuing of all Lease Type Vehicles and Contracts to Clients. Further responsible for the issuing and contracts management of the older permanently allocated rental model vehicles.

- **VIP Section**

Responsible for issuing VIP Hire Type vehicles to clients on short term daily rental based contracts.

Vehicles on own VIP Site contract is also used for Taxi / Chauffeur Driven Services rendered by the VIP (vehicle with driver) section.

Relieve based contracts may be opened to clients where they have a valid Lease or Permanent allocated vehicle which will undergo long term repairs and a relieve vehicle is required in its place on a temporary only basis.

- **Pool Section**

Responsible for issuing Pool Hire Type vehicles to clients on short term daily rental based contracts.

Relieve based contracts may be opened to clients where they have a valid Lease or Permanent allocated vehicle which will undergo long term repairs and a relieve vehicle is required in its place on a temporary only basis.

- **TSS**

Responsible for issuing vehicles allocated to its division, to any other g-FleeT business unit as required from time to time, to conduct the day to day business of g-FleeT. It is therefore used internally only, with an Electronic Trip Authority to be opened by TSS in the name of the responsible g-FleeT business unit / site and the driver taking control of the vehicle.

Training Manual – Vehicle Contracts Management

4. USER ACCESS REQUIREMENTS

Creation of contracts within the FIS requires both a Capturer and Approver. This is required as advised through previous audit findings and because it involves the financial commitment and assignment of the vehicle contract to clients for cost recovery through journal based billing created within the FIS.

Because of the staffing structure and manner in which these divisions operate, the access was structured such that it allows for one user within a specific business unit to capture the contract and any different user in the same business unit to approve the captured contract. The same user cannot both capture and approve the same contract.

4.1 Capturer Actions

a) Capturer Actions from Contracts Main Search Screen

The capturer can select one of the below action buttons on an existing contract in the list:

- Edit (Status = Awaiting Approval)
- Process (Status = Approved)
- View (Status = Activated / Closed)

b) Capturer Actions from within the Contracts Management Screen

On a **Non-Activated Contract**:

Vehicle Contract Management			
« Return to Search	< Active Contract Overview	Process Approved Contract for GGR206G GGR206G	
Available Actions:	Validate Form Data	Activate Contract	Cancel Loaded Contract

- Validate Form Data
- Submit For Approval
- Cancel Loaded Contract (after submitted for approval, but not yet approved)

On an **Activated Contract**:

Vehicle Contract Management			
« Return to Search	View Existing Contract for GGT456G GGT456G		
Available Actions:	Open a Contract	Extend Active Contract	Reassign Contract

- Open a Contract
- Extend Active Contract
- Reassign Contract
- *Cancel Contract (g-Fleet requested to now have this function added)*

Training Manual – Vehicle Contracts Management

4.2 Approver Actions

a) Approver Actions from Contracts Main Search Screen:

- Edit
- Review (review for approval)
- Process (on Approved contract still to be Activated)
- View

b) Approver Actions from within the Contracts Management Screen

On a **Non-Activated Contract**:

Vehicle Contract Management				
« Return to Search < Active Contract Overview		Review Pending Contract for GGT300G GGT300G		
Available Actions:	Validate Form Data		Approve	Approve and Activate
			Decline For Correction	Decline

- Validate Form Data
- Approve
- Approve and Activate
- Decline for Correction
- Decline

On an **Approved Contract** (but not yet activated):

Vehicle Contract Management				
« Return to Search < Active Contract Overview		Process Approved Contract for GGR206G GGR206G		
Available Actions:	Validate Form Data		Activate Contract	Cancel Loaded Contract

- Validate Form Data
- Activate Contract
- Cancel loaded Contract

On an **Activated Contract**:

Vehicle Contract Management				
« Return to Search		View Existing Contract for GGT456G GGT456G		
Available Actions:		Open a Contract	Extend Active Contract	Reassign Contract

- Open a Contract
- Extend Active Contract
- Reassign Contract

Training Manual – Vehicle Contracts Management

- *Cancel Contract (g-Fleet requested to now have this function added)*

5. PRE-REQUISITES FOR CONTRACT CREATION

a) The following pre-requisites needs to be met to allow for contract allocation/creation

- Vehicle must exist within the FIS
- All Vehicle Master required information must exist within the FIS
- Valid Tariffs must exist for the intended contract type assignment
 - valid Lease Tariffs for the specific vehicle if to be utilised as a Lease Type vehicle
 - valid Overhead and Maintenance Values for current financial year
 - valid Monthly, Daily, Hourly and Kilometre Tariffs generated for current financial year via FIS built-in Tariff Calculator (requires year model, purchase amount, overhead values, maintenance values)
- Valid Client Department and Sites must exist, for allocation selection
- Valid Financial System must be defined for the Client Department/Site
- Valid Financial Codes must be uploaded and activated for the allocated Client Site

b) Physical vehicle related requirements to be met

- Valid License Disc
- Wheel Spanner
- Jack
- Vehicle to be in a roadworthy condition (general check, not catered for on contract screen)

6. MENU NAVIGATION

Click on  under the main FIS menu and then select:

The below Contracts Management screen will load, allowing for entering the vehicle GG or Registration Number for which a contract needs to be viewed and managed, or the user can scroll to any of the already captured contracts in the displayed Pending Contracts List and action it as allowed for via the Action button.

The Pending List lists all vehicle contracts which are captured and not yet Approved, including those that are Approved & Activated. Activated Contracts will fall away from the list after a certain number of days as there is no need to display them for reference purposes in the list any longer.

Training Manual – Vehicle Contracts Management

Non-approved contracts will however stay visible in the list as these are pending a required action and/or approval.

Approved contracts will auto-activate after being on approved status for a specific period of time. This is to allow for pre-capture and approval of contracts but where the client collection date is not now, but sometime in the future.

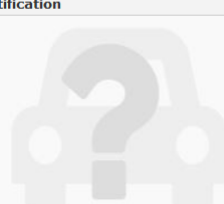

Activated contracts are those contracts which are captured and after review Approved and Activated to allow for immediate handover to the client.

7.2 NEW Vehicle Contract Management

Vehicle on Status NEW and therefore not yet allocated on a contract (Current Contract = No).

The **Contract Overview Screen** reflect the **Vehicle Details**, the **Contract Client** (*intended or current active contract client*). The capturer can perform contract readiness checking for allocation against a client department and site by selecting such department and site under the Contract Client, with the system updating the Contract Readiness section so the capturer can see whether it passes for the department and site selected.

Further **Contract Readiness error notifications and prompts** are displayed to the user for action and resolution or escalation. These error notifications relay the applied business rules logic of what is required and/or non-complaint for valid issuing and maintenance of the contract.

7.3 Contract View Screen

The Contract View Screen consists of seven (7) main grouped components namely the:

1. Vehicle Details
2. Contract Readiness
3. Vehicle Assessment Details
4. Client Details
5. Billing Details
6. Contract Details
7. Tariff Summary Details

Allowed user actions are displayed on the top of the screen (e.g. Open Contract; Extend Active Contract; Reassign Contract; Cancel Contract).

The screenshot displays the 'Vehicle Contract Management' interface. On the left is a sidebar menu with options like 'Home', 'Manuals', 'Accidents', 'Auction', 'Call Centre', 'Clearance', 'Contracts', 'Finance', 'Fines', 'Fuel Cards', 'Licenses', 'Log Books', 'Log Sheets', 'Losses', 'Monitor', 'Private Hire', 'Reports', 'Site Staff', 'Taxis', 'Towing', 'Tracking', 'Trip Authorities', 'Troubleshoot', 'Validation Data', 'Vehicle Asset Verification', 'Vehicle Inception', 'Vehicle Master', 'Vehicles NOM', 'Vehicle Photos', 'Workshop', 'User Admin', 'Change Password', and 'Logout'. The main content area is titled 'Vehicle Contract Management' and shows details for contract 'GGS000G'. It includes sections for 'Vehicle Details', 'Contract Readiness', 'Vehicle Assessment Details', and 'Client Details'. The 'Vehicle Details' section shows a white Toyota Corolla 1.3 Prestige (2014-2015) on lease in Johannesburg. The 'Contract Readiness' section shows the contract is active and valid. The 'Vehicle Assessment Details' section shows various checks like 'Sets of Keys', 'License Disc', 'Wheel Spanner', 'Jack', 'Fuel Card', 'Wheel Lock Key', 'COF Disc', 'Spare Wheel', 'Smash & Grab', 'Logbook', 'Gear Lock', 'Tracker', 'Radio', 'Fire Extinguisher', and 'Damages'. The 'Client Details' section shows the contract is for the Department of Justice (DOJ) in L.C. Richmond (KZN).

Training Manual – Vehicle Contracts Management

The user can view the current contract for the vehicle from the contract edit screen. The below is an example of the view current contract screen, but for a NEW vehicle which does not have a contract nor contract history as yet, therefore it only displays the Vehicle Details and Contract Readiness. There is also an Available Action button seen in Red which the user can click to go back to Edit of the Pending Contact in the event that one was captured and exists.

Yes No	Current Contract		Monthly Rate	Daily Rate	KM Rate	Excess KM Rate
			R 10 296.00	R 0.00	R 0.00	R 0.37
[Invalid Financial Configuration]: The selected department does not have an active and valid financial system configuration compliant to SCO4. Please contact Finance section to resolve the matter.						
[No valid Fuel Card]: The selected vehicle does not have a valid fuel card. If required, please contact Fuel Card Section to resolve the matter.						

7.4 Contract Form Sections and Required Data Entry Fields

Required data selection or entry fields are marked with an asterisk next to it. The capturer can at any time click on the Validate Form Data button which will then validate all data entered, flagging any incomplete entry fields in red.

When all data fields are correctly populated the “Submit For Approval” button which was greyed out until now, will be activated and the user can then submit the pending contract for approval.

Training Manual – Vehicle Contracts Management

7.4.1 Vehicle Details

Reflects the vehicle physical details as well as the Status, Hired From and Hire Type the vehicle is allocated under within the Vehicle Master. Provision is also made for photo images of the vehicle, all intended for the user to affirm he is working with the correct vehicle for which a contract is being opened/viewed.

The screenshot shows the 'Vehicle Contract Management' interface. On the left is a sidebar menu with options like 'Home', 'Manuals', 'Accidents', 'Auction', 'Call Centre', 'Clearance', 'Contracts', 'Finance', 'Fines', 'Fuel Cards', 'Licenses', 'Log Books', 'Log Sheets', 'Losses', and 'Monitor'. The main content area has a header with 'Vehicle Contract Management' and navigation links. Below the header, there are 'Available Actions' (Validate Form Data, Submit For Approval) and a 'Vehicle Details' section. The details are organized into two columns: 'Vehicle Details' and 'Identification'. The 'Vehicle Details' section includes fields for GG Number, VIN/Chassis Number, Make & Model, Colour, Hire Type, and Status. The 'Identification' section includes fields for Registration Number, Engine Number, Year Manufactured, Depot Location, Hired From, and Status Date. A photo of the vehicle is shown in the 'Identification' section.

Vehicle Details		Identification	
GG Number:	GGS605G	Registration Number:	FF77KCGP
VIN/Chassis Number:	WDD2073362F310181	Engine Number:	27492030380489
Make & Model	MERCEDES E250 NEW COUPE (C207) (2014-2016)	Year Manufactured	2016
Colour	White	Depot Location	Johannesburg
Hire Type	Permanent Hire	Hired From	g-Fleet Normal
Status	New	Status Date	

7.4.2 Vehicle Assessment Details

The Vehicle Assessment is basically the captured physical inspection details as should be performed prior to issuing any vehicle to a client and thus ensuring it is in a proper, complete and roadworthy condition.

The screenshot shows the 'Vehicle Assessment Details' interface. It features a sidebar menu with options like 'Private Hire', 'Reports', 'Site Staff', 'Taxis', 'Towing', 'Tracking', 'Trip Authorities', 'Troubleshoot', 'Validation Data', and 'Vehicle'. The main content area has a header with 'Vehicle Assessment Details' and a checklist of items to be assessed. Each item has a 'Yes' or 'No' button. The items are: Sets of Keys, License Disc, Wheel Spanner, Jack, Fuel Card, Wheel Lock Key, COF Disc, Spare Wheel, Smash & Grab, Logbook, Gear Lock, Tracker, Radio, Fire Extinguisher, Damages, and Notes.

Vehicle Assessment Details	
☐ Sets of Keys ☐ Wheel Lock Key ☐ Gear Lock	☐ License Disc ☐ COF Disc ☐ Tracker
☐ Wheel Spanner ☐ Spare Wheel ☐ Radio	☐ Jack ☐ Smash & Grab ☐ Fire Extinguisher
☐ Fuel Card ☐ Logbook ☐ Damages	☐ Notes

- Sets of Keys
- License Disc – **Compulsory*
- Wheel Spanner – **Compulsory*
- Jack – **Compulsory*
- Fuel Card (Number will auto populate if valid card data exists in FIS)
- Wheel Lock Key
- COF Disc
- Spare Wheel
- Smash & Grab
- Logbook (if selected as YES, the logbook next start page range number and the end range number needs to be entered)
- Gear Lock
- Tracker
- Radio
- Fire Extinguisher
- Damages
- Notes

Training Manual – Vehicle Contracts Management

Training Manual – Vehicle Contracts Management

7.4.5 Contract Details

The Contract Details part contains the actual contract type, status and term / kilometre assignment details of the contract. For a Lease vehicle the Lease Contract Terms information is captured / displayed here (Start Date; Contract Period; Start Odometer; Contract Kilometres).

This information is used to create the monthly or daily specific billing of the vehicle in terms of the number of days utilised, kilometres travelled, etc.

Contract Details							
Contract Type	Lease	Yes No	Opt-In for Relief Vehicle	Contract Status	Awaiting Approval	Last Billed Date	
Start Date	2017/06/08	End Date		Contract Period	36 Lease Months *	Return Date	2020/06/07
Start Odometer	62 KM *	End Odometer	0 KM	Contract Kilometers	100000 KM *	End Kilometers	100062 KM
Notes							

- Contract Type
- Relieve Vehicle Option (Yes/No)
- Contract Status (e.g. Awaiting Approval or Approved)
- Last Billed Date (last batch date when transactions were billed for this vehicle)
- Start Date
- End Date (only entered when closing a contract)
- Contract Period (Months if Lease, or days if other rental types)
- Return Date (Expected date on which vehicle is to be returned for this contract)
- Start Odometer
- End Odometer
- Contract Kilometres (calculated as difference between Start Odo and expected End Kilometres entered)
- Notes (to capture notes applicable to the Contract Details section of the contract)

7.4.6 Tariff Summary Details

The Tariff Summary Details are displayed at the very bottom of the contract form. This allows for easy viewing and reference of the applicable tariffs for the vehicle as well as the expected end of contract total billing cost associated with the contract type and terms information as captured.

Tariff Summary Details					
Monthly Tariff (p/m)	R	10 296.00	KM Tariff (p/km)	R	0.00
			Excess KM Tariff (p/km)	R	0.37
* Estimated Total of Tariff Charges Over the Contract Period (excluding fuel, oil, tolls, fines, losses, damages, excess charges)					
Total Fixed Tariff Charges	R	391,248.00	Total KM Charges	R	0.00
			Sub-Total (All Charges)	R	391,248.00
